

Secretary's Minutes PHC Board Meeting January 3, 2010

The majority of the decisions about program were published in the December Gridleak. I will not duplicate those listings but will discuss the boards plans and ideas.

It was decided to move the PHC Amateur Radio Classroom to Dave Balsics company WDSL Conference Room at 1349 E Evans in order to have power and antennas to demonstrate Ham equipment.

The library was a convenient public location but not conducive to demonstrations with radios. It will still be on the second Monday of the month at 7:00 PM.

The board meeting will be used to take care of all club business that does not require a vote of the full membership. The board meeting will be held at 6:30 at WDSL on Evans on the last Sunday of the month.

Non board members are always welcome at the board meeting. It is open to anyone.

Articles for the Gridleak will need to be submitted earlier so the Gridleak can be published earlier.

Next program is January 11th and the next board meeting is January 31st.

Submitted by Stanley Clark, WB0JRG PHC secretary
