

## Pueblo Ham Club Minutes

### **Board Meeting April 6th, 2009**

The meeting began at 7:00 PM with sufficient board members to vote. President Bill Nicoll, K0CGQ reported on his findings for a club member hat and shirt. A consensus of opinion was made to determine color and style of hat. It was voted to present the information to the full meeting to let members decide what they wanted.

On June 6th there will be a one day demo at Bents Fort in conjunction with a special activity day held at the National Museum site. Officers will make a special trip there before hand to scope out the layout. There is a campground near La Junta if members want to camp out to be there early for set up.

The annual Corn Feed will be held on August 15th. And the ARRL state convention will be held in Estes Park the weekend of May 9th.

### **Regular Ham Club Meeting of April 14th, 2009**

The meeting was held on Tuesday due to Skyward training on Monday, It was called to order at 7:00 PM with 18 members present.

June 6th Bents Fort demo was discussed. We plan to work 20 meters and have a VHF set up. It is important for those attending to bring their own chairs and food. There are no picnic tables or chairs there and no place at the Fort to buy food, so bring your own food and drinks. We need to be set up by 8 AM and be out by 10 PM. The cut off time will depend on visitor presence. All members are encourage to attend to help us demo our hobby to the general public.

The proposed caps and shirts were discussed. It was voted for the club to pay the set up cost associated with placing our design in their computer for all future hat and shirt needs. It was also voted for the club to pay for the shirts when completed and then members will reimburse the club treasurer for hats and shirts purchased. This was to accomodate the print shop insted of dragging out the sale payments. The hat will be tan with a dard blue bill. The shirts will be light blue, however ther are more variations available in shirts.

Bill Evans, WD4FNY, came from Colorado Springs to give a demonstration of PSK31 mode on the HF bands. Many thanks for his demo.

September 5th is the Colorado QSO party in which we will participate.

Submitted by Stan Clark WB0JRG, Secretary.
